Community Fridge

4th March 2025

OVERVIEW

DON'T BE RUDE, DONATE SOME FOOD!

Initial requirements implemented using MySQL, Express and PUG, using Docker containers for the team development environment and demonstration. To include at minimum (these pages must use data pulled from your database):

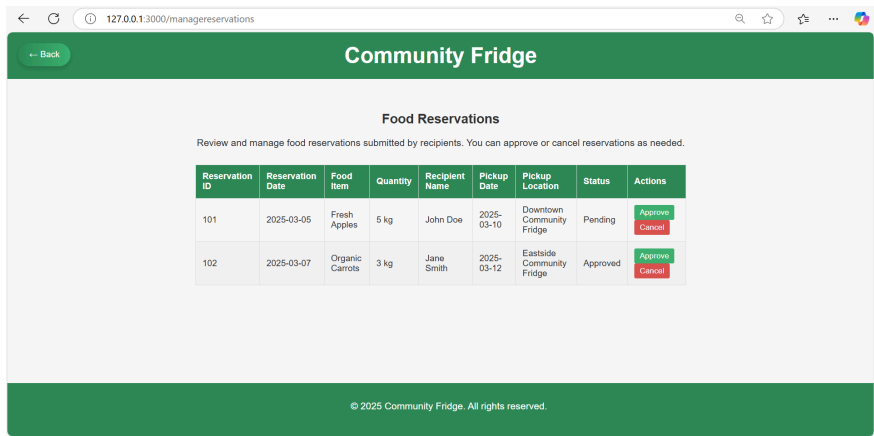

- Users list page
- User profile page
- Listing page
- Detail page
- Tags/categories

Group AAA:

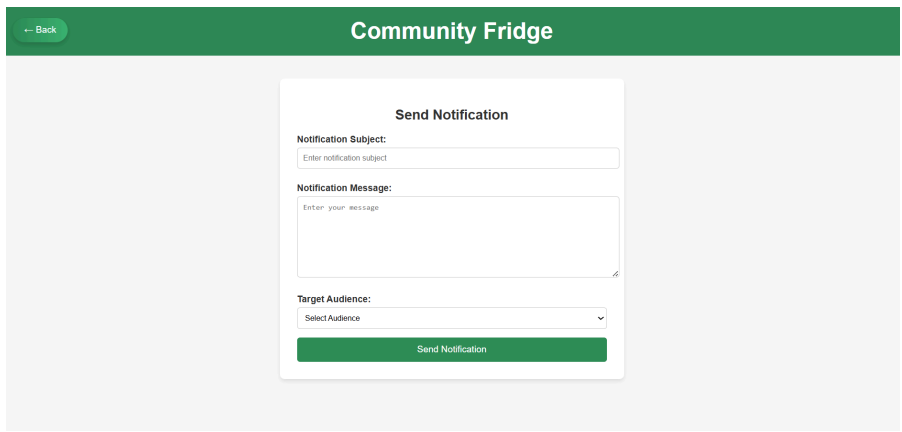

1. Omid Alakozai (ALA23586553)
2. Adrian Dimitrov (DIM21551645)
3. Asya Angelova (PLA22558356)
4. Muhammad Awais Ali (ALI22593481)
5. Mahir Abdulkadir (MAH22561292)

USER STORIES THAT ARE IMPLEMENTED:

- As a volunteer, I want to see a list of people who have reserved food so that i can ensure fair distribution.

- As a donor, I want to receive notifications when a food delivery is picked up so that I know my donations are being used

- As a community kitchen manager, I want to manage multiple community fridge locations so that I can oversee donations efficiently.

TASK BOARD (KANBAN BOARD)

The tasks split between the 5 group members and they was allocated different tasks such as:

Asya was allocated to update the JavaScript as well as making sure everything runs smoothly.

Omid was allocated to completing PUGs and updating the code.

Muhammad was allocated to updating the HTML codes & PUG codes. Updated Interfaces were done as well.

Adrian was allocated to Database design and updating Databases for more items and other pages.

Mahir was allocated to JavaScript with Asya and the tasks were split between him and Asya.

Meeting Minutes

The first meeting we had on the 22/03/25, we allocated everyone to their roles and explained each tasks that was given to us.

Meeting Minutes
